Headquarters:

112, Upsal Street SE, Washington DC, United States www.profohmed.org, info@profohmed.org

SCREEN. TREAT. OPERATE.

Free eye surgeries for patients in need

Educate

Local medical teams about current techniques and developments

Provide

Provide training and manpower support to developing countries

Serve

As goodwill Ambassadors for the ten incorporated nations and the sixteen countries with our presence

WHAT WE DO

PROFOH sends medical delegations to developing countries to screen, treat and perform eye surgeries for patients in need. The delegations operate in local hospitals, clinics or in one of the specialized mobile operating rooms (MORs) The MORs enable us to perform sight-saving eye surgeries in remote locations with no hospital facilities.

PROVIDE KNOW-HOW

Our members teach and model surgical procedures so local medical professionals can learn about the latest techniques in ophthalmological surgeries and treatments. PROFOH conduct medical outreaches in developing countries and can organize professionals exchange program from developing nations to USA,UK, Germany, India, Ireland and Austria for continuing educational programs.
